Welcome to CTVA 461 - Fall 2009

Another exciting semester. This semester is all about producing cartoon using the Flash and After Effects authoring application. Each person will be responsible for producing a one minute original cartoon for this course. 7 animations will then be delivered on DVD as both a Mac based and PC based Projector file.

Throughout this semester you should be focused on creating high quality work. Work that would make you proud to enter into an animation festival.

Welcome to the class and let's have fun,

Ari Danesh
